Enclosed is information about locating mining claims in Idaho. We do not maintain a general map of existing claims or areas open to mineral entry. We have surface status maps that indicate BLM, Forest, State, and private lands. A map index is included at the back of this brochure to help you identify the map and BLM District Office that covers your area of interest.

BLM records of land status in Idaho, called Master Title Plats (MTPs), are available for inspection at the Idaho State Office or the BLM District Offices for their management area. These records indicate ownership of lands, and whether or not lands are open to mineral entry. You need to know the legal description (township, range, section) of the area in question in order to use these records. Paper copies of the MTPs may be purchased for \$1.10 each. MTPs are also accessible at the GLO website <http://www.glorerecords.blm.gov/> under the LSR tab.

Mining claim files are kept at the Idaho State Office. These files contain location notice(s), map(s), and other filed documents. Copies from these files are available for a fee (see the enclosed fee list).

Active and closed unpatented mining claim data can be viewed on the Land and Mineral LR2000 web page at www.blm.gov/lr2000. You may research by owner name, claim name, IMC number, or legal description (meridian, township, range, section). The legal description is required when searching for claims in a particular area. To completely research what lands are open for mining claim location, a combination of these records, in addition to the applicable County's records, should be inspected.

We do not provide official forms but provide sample formats for the following: Mining Claim Location Notice, Affidavit of Assessment of Work, Notice of Intent to Hold, Maintenance Fee, and Relinquishment. The only official form is the Small Miners Waiver

The Information Access Center is open Monday through Friday from 9:00 am to 4:00 pm, except Federal holidays. We can also be reached by phone at (208) 373-3889, or fax (208) 373-3899.

FREQUENTLY ASKED QUESTIONS

1. What are Locatable Minerals?

Locatable minerals can be obtained by locating a mining claim. Locatable minerals include both metallic minerals (gold, silver, lead, etc.) and nonmetallic minerals (fluorspar, ornamental stone possessing unique characteristics, sulfur, barite, zeolite, gemstones, etc.) Originally, all minerals except for coal were obtained under the General Mining Laws, however, Congress has removed certain minerals from the operation of the General Mining Law.

Leasable Minerals. Leasable minerals today include oil and gas, oil shale, geothermal resources, potash, sodium, native asphalt, solid and semisolid bitumen, bituminous rock, phosphate, and coal.

Mineral Materials. Since 1947, the Federal Government has sold common varieties of sand, gravel, homate, stone, pumice, pumicite, cinders, and ordinary clay. Use of salable minerals requires either a sales contract or a free use permit. The BLM may issue free use permits to a government agency or a non-profit organization. The Forest Service administers the disposal of salable minerals from the National Forest System lands.

2. What is a mining claim?

“ That portion of the public mineral lands which a miner, for mining purposes, takes and holds in accordance with mining laws”. The right is restricted to the development and extraction of a mineral deposit as regulated by the BLM or the Forest Service. The rights granted by a mining claim are valid against a challenge by the United States and other claimants only after the discovery of a valuable mineral deposit. Generally speaking, a mining claim is referred to as a lode claim if mineralization occurs as a vein of ore in place or as a placer claim if minerals are dispersed among particles of sand or gravel. A millsite is used to process minerals from a lode or placer claim.

3. Can I file a mining claim on any Federal land?

Not all Federal lands are open for mining claims. There are Federally administered lands in 19 States where you may file a mineral claim or site: Alaska, Arizona, Arkansas, California, Colorado, Florida, Idaho, Louisiana, Mississippi, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. In these States, the BLM manages the surface BLM lands and the Forest Service manages the surface National Forest System lands. Excepting mineral materials, the BLM is responsible for the minerals on both BLM and National Forest System lands.

You may prospect and locate claims and sites on lands open to mineral entry. Claims may not be staked in areas closed to mineral entry by a special act of Congress, regulation, or public land order. These areas are withdrawn from the operation of the mining laws.

Areas withdrawn from location of mining claims include National Parks, National Monuments, Indian reservations, most reclamation projects, military reservations, scientific testing areas, most wildlife protection areas (such as Federal wildlife refuges), and lands withdrawn from mineral entry for other reasons. Lands withdrawn for power development may be subject to mining location and entry only under certain conditions. Mining claims may not be located on lands that have been:

- designated by Congress as part of the National Wilderness Preservation System,
- designated as wild portions of a Wild and Scenic River, or
- withdrawn by Congress for study as a Wild and Scenic River.

There is usually a 1/4 –mile buffer zone on either side of a river while the river is being studied for inclusion in the Wild and Scenic Rivers System.

Locatable (hard-rock) minerals on most lands acquired by the United States and on Indian reservations are leasable. The Bureau of Indian Affairs is responsible for leasing minerals on Tribal lands and lands held in trust for the benefit of individual American Indians.

4. Can I start mining after I file my mining claim?

No. You must get all necessary permits before you start mining, even if you have completed filing your mining claim. Most Federal agencies have regulations to protect the surface resources of the Federal lands during exploration and mining activities. You must submit a notice or a plan of operations before conducting any surface-disturbing activities, except for casual use activities. You also must reclaim disturbed sites after you complete your exploration and mining activities. Most State governments also have mining and reclamation requirements. To avoid duplication, several States have entered into cooperative agreements with Federal agencies. Operators should check with Federal and State agencies to determine the proper lead agency before submitting a plan of operation. You must also provide a financial guarantee

-BLM Lands: Exploration and mining activities on mining claims on BLM-administered land are subject to the regulations of the Secretary of the Interior in 43 CFR 3809 and for Wilderness Study Areas, 43 CFR 3802. These regulations require an operator to prevent unnecessary or undue degradation of the land. For activities other than casual use, they require the operator to submit either a notice or plan of operations and a reclamation plan.

-Forest Service Lands: Exploration and mining activities on lands administered by the Forest Service are subject to the regulations of the Secretary of Agriculture in 36 CFR 228(A). These regulations require that anyone whose proposed operation could likely cause significant disturbance of surface resources must submit a plan of operations. Miners wishing to prospect or locate claims or sites in National Forests should contact the local Forest Service District Ranger concerning questions about operating plans.

5. How can I get minerals commonly used for construction?

There is no specific application form for requesting removal of mineral materials from public lands. Persons interested in buying mineral materials on public land should contact the nearest BLM Field Office or the Forest Service for mineral materials located in National forests.

6. Can I get mineral materials for free?

The BLM may grant free use permits to governmental agencies, non-profit organizations, and corporations. The permittee is not allowed to barter or sell the mineral materials acquired under the permit. Federal, State and local governmental agencies may be granted free use permits for mineral materials, if they can show that a public need exists for the material. The BLM may allow non-profit organizations and corporations, such as churches and scouting organizations, to remove limited quantities of mineral materials.

7. Who May file a mining claim?

- Citizens of the US over the age of discretion, which for Idaho is 18
- Legal Immigrants who have filed an application for citizenship
- Business entity organized under the law of any state
- Duly constituted and appointed agent

Aliquot Parts

"Aliquot" is a Latin word meaning to divide (a number or a quantity, or in our case, a piece of land) into equal parts leaving no remainder.

In legal descriptions, only quarter or half divisions of a section of land are known as aliquot parts. An aliquot part is always described in relation to the four points of the compass, with the use of the standard compass abbreviations, N, W, S, and E as shown in the illustration to the right.

The $\frac{1}{2}$ and the $\frac{1}{4}$ are the only fractions that appear in the description of land by aliquot parts.

Describing Half Sections

The north half of a section is written: $N\frac{1}{2}$

The south half of a section is written: $S\frac{1}{2}$

The same rule applies to the east and west halves: $E\frac{1}{2}$ and $W\frac{1}{2}$ respectively

Describing Quarter Sections

To describe each of the quarter sections, you need to add one notation; that is, you need to show which of the four corners is intended.

The northwest corner is written: NW $\frac{1}{4}$

The northeast corner is written: NE $\frac{1}{4}$

The same rule applies to the southwest and southeast corners, SW $\frac{1}{4}$ and SE $\frac{1}{4}$, respectively.

Further Subdividing

Suppose that you want to describe the north half of the northeast quarter AND the east half of the southeast quarter.

These legal descriptions would be written as N $\frac{1}{2}$ NE $\frac{1}{4}$ (the north half of the northeast quarter) and E $\frac{1}{2}$ SE $\frac{1}{4}$ (the east half of the southeast quarter) respectively.

Note that the description of the larger tract (e.g. NE $\frac{1}{4}$) from which a half was taken does not change.

Note: Do not part your parcel down to less than 2.5 acres

INSTRUCTIONS

1. This certification is made under the provisions of §1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
4. All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

FOR OFFICIAL USE ONLY

NOTICES

The Privacy Act of 1974 and the regulation in 43 CFR 2.48 (d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

The BLM collects this information to determine if you qualify for a waiver from the payment of \$125 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830.

Response to this request is required in accordance with the statute to obtain your benefit.

The BLM would like you to know that you do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

BURDEN HOURS STATEMENT: Public reporting burden for this form is estimated to average 20 minutes per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate or any other aspect of this form to the U.S. Department of the Interior, Bureau of Land Management (1004-0114), Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St., N.W., Washington, D.C. 20240.

1. Calendar Year

The undersigned certifies that they intend to hold all claims and/or sites listed for the calendar year in which the assessment year ends, and that they have filed a Notice of Intent to Hold in the county where the claim(s) is located.

Filed for calendar year 20 ____.

Reason for filing a Notice of Intent to Hold instead of an assessment work filing:

- ___ Mill or tunnel sites.
- ___ Claim(s) were located during the current assessment year.
- ___ BLM has deferred assessment work (attach copy of decision or petition for deferment including date petition was filed).
- ___ Maintenance fee was paid to maintain claim(s) during this assessment year.

(my commission expires _____)

2. You must check the reason(s) for filing a Notice of Intent to Hold.

If you file a small miner's waiver on a claim **located** before Sept 1 (whether the claim is recorded before or after Sept 1) you must file a notice of intent to hold or an affidavit of assessment by Dec 30 of the current year.

A notice of intent to hold can be filed for the first assessment year because assessment work is not required for the assessment year in which the claim is located. An affidavit of assessment is **required** for each following assessment year for lode and placer claims that are under waiver.

Processing fees must be paid at the time of filing or the document will be returned unprocessed.

Pursuant to 43 U.S.C. 1212 and 18 U.S.C. Section 1001, the filing or recording of a false, fictitious, or fraudulent document with the Bureau of Land Management may result in a fine of up to \$250,000, a prison term not to exceed five years, or both. This information is being collected to enable BLM to determine which claims their owner(s) wish to continue to hold under applicable Federal statute. A response is required to obtain a benefit in accordance with Section 314 of the Federal Land and Policy Management Act of 1976, as amended, 43 U.S.C. 299, and 30 U.S.C. 28f-k, as amended. This authority to collect personal information may be found in DOI Privacy Act System Notice LLM-32. The name and address are required for filing and retrieval purposes. Additional authority: 43 U.S.C. 1601, 43 U.S.C. 1701, and 42 U.S.C. 4601.

Important Notes!

Affidavits of assessment are required for the current assessment year by Dec 30 if you:

1. filed a small miner's waiver during the previous year.

2. are switching from a small miner's waiver (filed the previous year) to the maintenance fee for the upcoming assessment year.

3. purchase a claim held by a small miner's waiver (filed the previous year) and you are paying the maintenance fee for the upcoming assessment year.

Failure to file an affidavit for above listed situations will cause your claims to be declared abandoned by operation of law.

****If the purchase of additional claims held under a small miner's waiver causes you to exceed the 10 claim limit you no longer qualify for a waiver and must pay the maintenance fee that was waived for the newly acquired claims by the Sept 1 immediately following the purchase in addition to the maintenance fees for the upcoming year.**
